Technical Skills

- HTML
- CSS
- TypeScript
- Go
- React
- Node.js
- AWS
- Docker
- MongoDB

Personal Skills

- Communication
- Problem Solving
- Self Motivated

About

I'm a self-taught, full-stack developer with 5 years of experience. I have a passion for all things software, with my primary focus being system architecture and the development of distributed systems. My main drivers are ensuring system scalability, maintainability and reliability through good design and coding practices.

Employment

Lexicon

Senior Software Engineer (May 2021 - Present)

Tech: Go, Node.js, React, AWS, Kubernetes, Docker, MySQL

- Design and Development of the Ladbrokes system responsible for the generation of monthly activity statements.
- Design and Development of Micro Frontends for IAG.
- Mentor 3 developers, where I provide guidance and help with upskilling.
- Run a Competitive Programming club within Lexicon where I help developers upskill in data structures and algorithms through weekly questions, competitions and tutorials.

ClimateClever

Software Engineer (Jul 2019 - May 2021)

Tech: Node.js, React, AWS, Docker, MongoDB

- Implemented Bit.dev for the sharing of components accross multiple web apps.
- Integration of local storage in web apps using Redux.
- Implemented CI/CD of microservices utilizing Docker and AWS CodePipeline.

AppsPeople

iOS Developer (Mar 2017 - May 2019)

Tech: Swift, Firebase, Realm, React, Node.js

- Worked accross multiple projects where I focussed on the development of iOS apps built in Swift, Web Apps built in React and backend API's built in Node.js.
- Refactored multiple View Controllers and implemented prefetching for asynchronous loading of data in tableViews, resulting in smooth 60fps scrolling.

Education

I am a self-taught Software Engineer who learned to code whilst studying Physical Education at university, I uncovered my passion for software and began teaching myself. Since then I've stayed up to date with the latest technologies and advanced my skill set through reading books, listening to podcasts, watching tutorials, completing certifications, and attending meetups and workshops.
